

C & S Engineering, Inc.

May 28, 2014

Ref: Palmieri Construction Company

TO WHOM IT MAY CONCERN

Palmieri Construction has been contracted by our organization for approx. the last 10 to 15 years for many construction projects for our facility including but not limited to:

- *Maintenance and repair projects
- *Roof repair and replacement
- *Remodeling our warehouse and offices
- *Renovating existing offices
- *Construction of new offices

We have not found a project that they could not handle. They are very competent and knowledgeable and very competitive and have been our prime contractor handling any carpentry, mason work, electrical, plumbing and providing any required sub-contractors as may be required.

They are an excellent contractor that we would highly recommend.
